Welcome to University of Galway!

We are delighted that you have chosen University of Galway, we know selecting a study destination is not easy and there is a lot to consider. Rest assured that you have made the right decision, and we are here to support you every step of the way.

This international and visiting student guide will provide you with the information you might need as you plan your arrival to Galway. It is designed not only to help you in your first few weeks but to also act as a point of reference throughout your time at University of Galway.

Be sure to download and refer to this booklet whenever you might need it!

Irish Culture

Before we get into the serious stuff, why not prepare yourself for settling into Irish culture.

University of Galway is Ireland's *only* bilingual university. We recognise the unique and positive role the Irish language plays in our culture and identity, and while lectures and college business are conducted through English, you will notice Irish being spoken around campus. Connemara, Ireland's largest Irish speaking region is located in Galway. We strongly encourage you to try and learn a cúpla focal (a few words) during your time here.

Ireland is famous for its music, literature, theatre, food, film, and art. There are so many ways to get involved and experience our vibrant culture, whether it's joining societies (more on that later) or going to the many gigs, shows, and exhibitions held on and off campus. The University is also perfectly located to experience the stunning landscape of the west of Ireland, with its gorgeous mountains and coastline right on our doorstep. Whether you're happiest in the water, on a mountain, or on a pitch, you can do it all here. There are beautiful places to swim, kayak, hike, or kick a ball.

The Wild Atlantic Way extends north and south of the city, and magical Connemara, with its woods, castles, and air of mystery, lies to the west. The Aran Islands are just a short boat journey away yet feel like an entirely different world. We recommend you make the most of every opportunity, you won't regret it.

Some Key Irish Phrases:

Dia Dhuit – “Dee-ya Gwit”
Hello

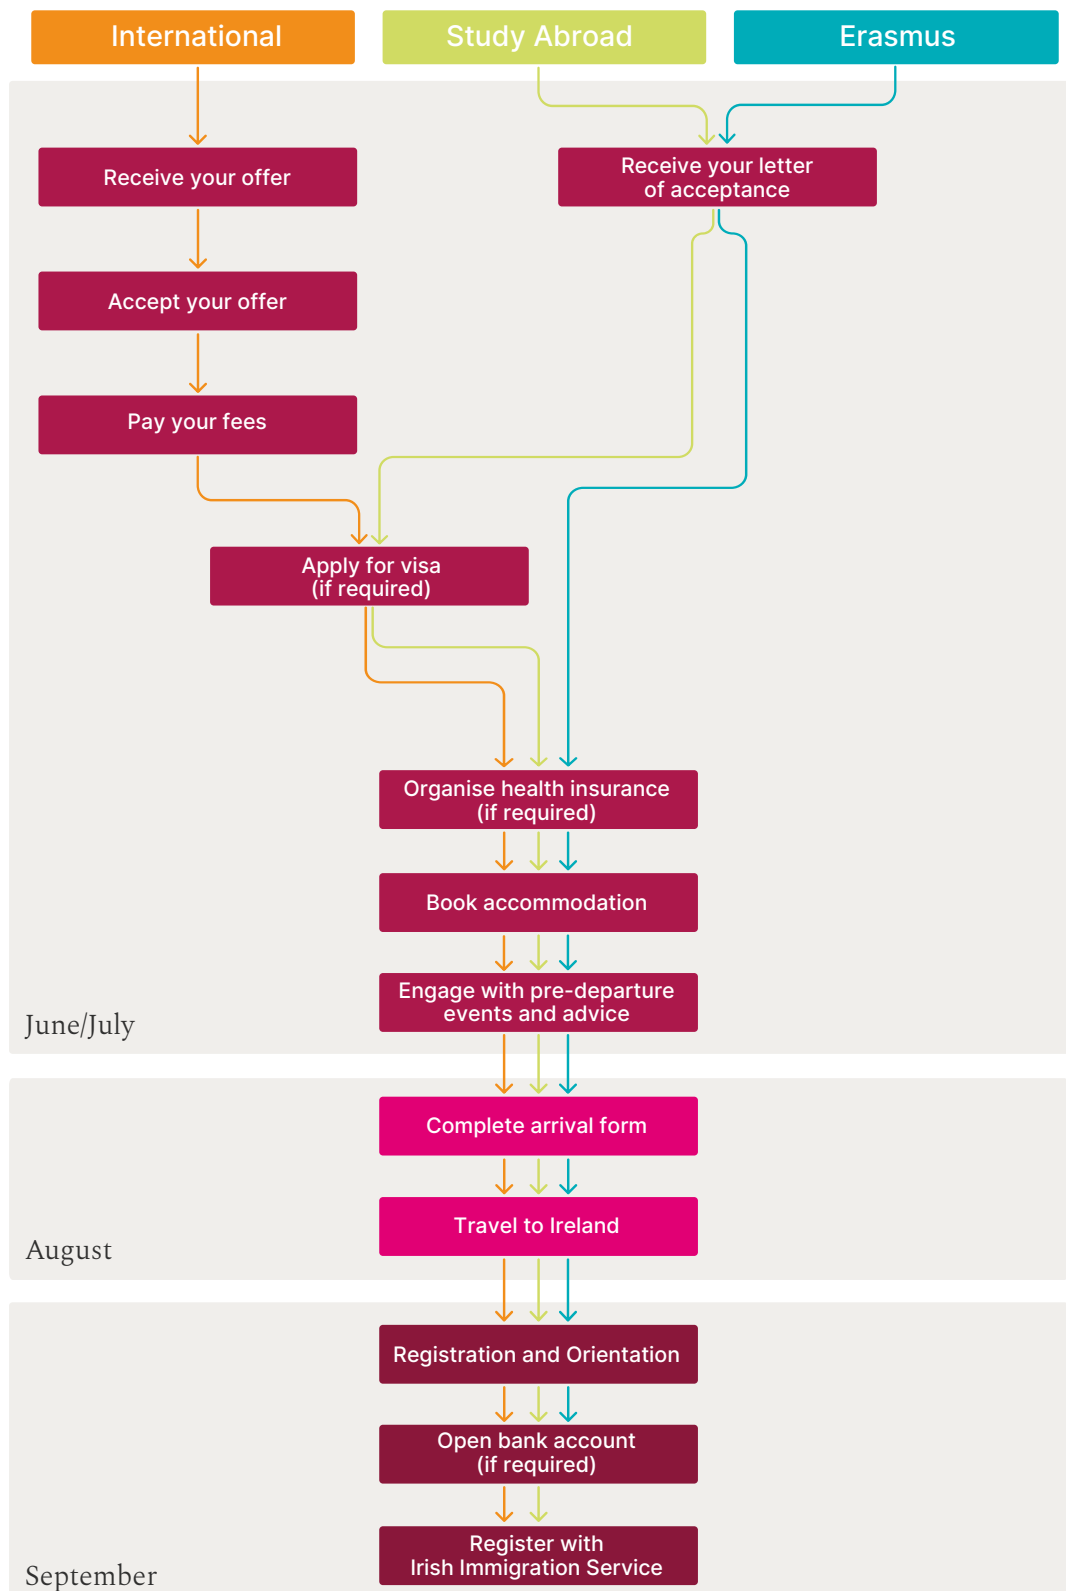

Dia is Muire dhuit – “Dee-ya iss mura gwit”
Hello (in response)

Go raibh maith agat – “Guh rev mah ogot”
Thank you

Sláinte – “Slawn che”
Cheers

Top Tips when Looking for Private Accommodation

Do not go to house viewings alone, always bring one friend (but avoid large groups).

Check out [Threshold](#), a registered housing advisory and advocacy charity who can inform you on your rights as a tenant.

Do not book long term accommodation in the private sector without viewing it, meeting with the landlord and receiving the keys.

Don't rush into making a decision if it doesn't feel right. If it feels too good to be true, it probably is.

Be very mindful of posts on Facebook; be aware of scams.

Make sure you know what's involved in the cost. Is it just rent or bills as well? Typical bills include electricity, home heating oil and internet.

Research the location of the accommodation, how will you get to campus? Are there amenities and stores in the area?

If you have any connections in Galway ask them for recommendations.

Four Seasons in One Day

Ireland has a temperate climate, but our weather likes to keep you guessing. Behind the dark clouds are often bright blue skies, behind the sun is a mist of cold and a looming shower of snow.

To get an idea of the weather and help with your planning, check out Ireland's state meteorological service Met Éireann [met.ie](https://www.met.ie) or [YR.no](https://www.yr.no).

It is best to categorise your packing into light, heavy and rain gear. That way, you are prepared for every season!

There are lots of retail clothing stores such as Dunnes – [dunnesstores.com](https://www.dunnesstores.com) or Penneys (Primark) – [primark.com](https://www.primark.com) where you can buy affordable clothes, so there is no need to overpack.

Three pin plugs are used in Ireland so you may require a three-pin plug adaptor, which can be bought at any electrical shop e.g., Currys Electrical.

The standard voltage in Ireland is 230V, if you are bringing electronic devices from home, ensure they will work at this voltage.

Now that you have made the journey to Ireland, you are probably wondering what arriving at the airport will look like. Arriving to a new country and beginning a new chapter in your life is both exciting and nerve-wracking and there is so much to consider. In this section, we will discuss what you might be faced with upon arrival into Ireland as an international or visiting student.

The two main airports we recommend are Dublin and Shannon Airports.

If possible, try to organise flights into Dublin Airport as onward travel to Galway is generally more frequent.

2.2 What to Expect on Arrival into Ireland

At the port of entry, immigration officers will want to ensure you meet the entry requirements as an international student.
