PRE-DEPARTURE

Website for international students	This website with information on life in the Netherlands and practical matters such as Visa, Housing and Financial Matters will help students prepare their stay.
Housing	Leiden University does not have its own dormitories; instead, students live in accommodation offered by external housing agencies and private landlords throughout Leiden and The Hague. Because housing in the Netherlands is limited and can be expensive, we strongly encourage students to begin their search well in advance and not rely solely on university-arranged options. Each year, the university reserves a limited number of rooms through DUWO for new international students, with priority given to short-term students, such as exchange students and one-year master's students. Although housing cannot be guaranteed, students may apply for university housing as soon as they submit their application for admission—there is no need to wait for an admission decision—and are encouraged to pay the €285 housing fee early. Once a room is reserved, DUWO will guide students through the next steps. We also advise all students to explore additional private housing options, and Leiden University is happy to provide guidance and tips during this process. Leiden University can give advice and tips. Please be informed that private housing can be expensive and is scarce.
Visa and residence	Holders of EU/EEA passports do not require a residence permit to study at Leiden

permits	University. Students with a non-EU nationality must have a residence permit and in many cases an entry visa as well. Once a student has been admitted to Leiden University, the International Relations Office will work with the student to apply on their behalf. Students should note that there is a fee of €243* for visas/permits and strict deadlines for submission of documents. Please note: the amount of living fee a student has to prove is €1150* p/m (for one semester is this amount €5750* and for 2 semesters €11500*). You must demonstrate proof of sufficient funds for living expenses for the duration of your exchange programme.
Insurance	All students are obliged to have health insurance to cover any medical costs incurred during their stay. We strongly recommend that students ensure they have medical insurance before their arrival. Students are also highly recommended to take out liability insurance to cover any accidental damage caused to other persons or property.
Estimated living expenses	On average, students will need at least €968 – €1338 per month. Also see financial matters . Please note that public transport is not free for exchange students, but discount cards are available.

Questions regarding course registration after arrival should be directed to the academic coordinator at the faculty responsible for the course a student wishes to take. *Please refer to our website for detailed information about course selection. About the course restrictions refer to the information under <i>Important faculty-specific considerations</i>.
