

			Responsible	Status*
1	Research Infrastructure and Facilities	Students are generally satisfied with their facilities and infrastructure; however, performance is slightly lower than the College and University in the area of library services and working space.		
		Increase the training available to students regarding access to library facilities.	SOE Dir GS	*In Progress
		Consult with HOS, CTO, and PhD students regarding working space	SOE Dir GS	*Not Started
2	Supervision	Students show high levels of satisfaction with supervision, but improvement relative to the University average is possible in the area of support for research		
		Encourage staff to avail of research supervision training	SOE Dir GS, SOE HOS	*Not Started
3	Research Culture	Scores in this area are strong compared to the averages and successful initiatives will continue to support this		
		Research seminars run by units such as Ryan Institute, Curam, MaREI etc. will be more widely disseminated to our research students.	SOE Dir GS	*In Progress
		Student-led seminar series will be rolled out across subject areas	SOE Dir GS	*In Progress
4	Progress and Assessment	Scores in this area are strong compared to the averages and successful initiatives will continue to support this		
		College and School level inductions to outline expectations for degree completion	Vice-Dean CoSE, SOE Dir GS.	*In Progress
		GRC Committees to ensure that students completion plans are reviewed and achievable	GRC	*In Progress
5	Research Skills	Scores in this area are strong compared to the averages. No specific School actions are required		
6	Other Transferable Skills	Scores in this area are strong compared to the averages. Initiatives are continued to maintain and improve this		
		Inform students of the RDC and encourage participation	SOE Dir GS	*In Progress

7	Responsibilities and Supports	Students are not aware of the supports available to support their needs and this is seen university wide		
		Work with College and University GS to improve communication regarding supports.	SOE Dir GS	*In Progress
8	Personal Outlook	While School scores are comparable to the University averages, there is lower satisfaction with work-life balance.		
		Use of new GRC forms engaging students on Work-life balance	SOE Dir GS	*In Progress
9	Research Funding	Overfall, the funding landscape shows that in Engineering, generally students have support that includes both stipend and fees and other costs. No actions are identified based on these data.		
10	Development Opportunities	The School scores are above average in this section and generally positive, apart from the career development plans		
		Ensure CDP is in place as part of GRC reviews	SOE Dir GS	*In Progress
11	Motivations	No actions are identified due to low numbers of responses.		
12	Career	While student's career choices are their choice, initiatives will continue to inform students about possible options.		
		Panel discussions with academic and industry-based research graduates	SOE Dir GS	*In progress
13	Overall Experience	Overall, Research students have above average satisfaction but less confidence regarding completion within time limits		
		Time management and project planning to be included in school induction materials to ensure students are empowered to finish their projects within the time limits	SOE Dir GS	*In progress
		Implement University strategy actions regarding PhD completion	SOE Dir GS	*Not Started
