# APPENDIX 1 NUTRITIONAL BEHAVIOURS AND OUTCOMES <br> A SPECIAL ANALYSIS OF THE HBSC SURVEY AS PART OF THE IMPLEMENTATION OF THE NATIONAL STRATEGY FOR RESEARCH AND DATA ON CHILDREN'S LIVES, 2011-2016 

This report was compiled by<br>Mary Callaghan and Saoirse Nic Gabhainn,<br>HBSC Ireland, Health Promotion Research Centre, National University of Ireland, Galway

## INTRODUCTION

The Health Behaviour in School-aged Children (HBSC) Survey is a cross-national research study conducted in collaboration with the WHO Regional Office for Europe and runs on a 4-year cycle. In 2010, Ireland participated for the fourth time in the HBSC Survey. The overall aims of the study are to gain new insight into, and increase our understanding of, young people's health and well-being, health behaviours and their social context. HBSC collects data on key indicators of health, health attitudes and health behaviours, as well as the context of health for young people. The study is a school-based survey, with information collected from students through self-completion questionnaires in classrooms. HBSC Ireland is funded by the Department of Health. Further information on the international HBSC study can be found at www.hbsc.org.

The most recent HBSC Ireland (2010) dataset comprises 16,060 school children from 3rd Class in primary school to 5th Year in post-primary school. In total, 256 schools across Ireland participated in the survey. The methods employed comply with the international HBSC protocol and are detailed in the national report from the 2010 survey (see www.nuigalway.ie/hbsc/ documents/nat_rep_hbsc_2010.pdf).

## FOCUS OF THIS REPORT

This short report provides a brief analysis of the 2010 HBSC Survey data on nutritional behaviours among school children aged 10-17 years in Ireland. The questions analysed for school children are presented by age, gender and social class for the following indicators:

- Breakfast consumption - weekdays (see Tables 1-8).
- Breakfast consumption - weekends (see Tables 9-16).
- Fruit consumption (see Tables 17-24).
- Vegetable consumption (see Tables 25-32).
- Sweets (candy or chocolate) consumption (see Tables 33-40).
- Coke or other soft drinks that contain sugar consumption (see Tables 41-48).
- Diet coke or diet soft drink consumption (see Tables 49-56).
- Crisps consumption (see Tables 57-64).
- Chips/fried potatoes consumption (see Tables 65-72).
- Fish consumption (see Tables 73-80).
- Eat breakfast with mother or father (see Tables 81-88).
- Have evening meal together with mother or father (see Tables 89-96).

■ Eat snack while watching TV (including videos and DVDs) (see Tables 97-104).

- Eat a snack while you work or play on a computer or games console (see Tables 105-112).
- Watch TV while having a meal (see Tables 113-120).

■ Get coke or other drinks that contain sugar from parents if ask (see Tables 121-128).
■ Get sweets or chocolates from parents if ask (see Tables 129-136).
■ Get biscuits or pastries from parents if ask (see Tables 137-144).
■ Get crisps from parents if ask (see Tables 145-152).

- In my family, there are rules at meal times that we are expected to follow (see Tables 153-160).
■ In my family, it is OK for a child to have something else to eat if he/she doesn't like the food being served (see Tables 161-168).
■ In my family, manners are important at the dinner table (see Tables 169-176).
■ In my family, we don't have to eat all meals at the kitchen or the dining room table (see Tables 177-184).
■ Going to school or to bed hungry because there is not enough food at home (see Tables 185-192).
■ Being on a diet or doing something else to lose weight (see Tables 193-200).

## FINDINGS

## Breakfast consumption - weekdays

Table 1: How often do you usually have breakfast (more than a glass of milk or fruit juice) on weekdays? By gender (\%)

|  | Boys | Cirls |
| :--- | ---: | ---: |
| I never have breakfast during weekdays | 10.6 | 14.9 |
| 1 day | 2.6 | 3.2 |
| 2 days | 3.1 | 4.2 |
| 3 days | 4.2 | 6.2 |
| 4 days | 3.7 | 5.5 |
| 5 days | 72.5 | 63.1 |
| Missing (no data supplied) | 3.3 | 2.9 |
| $n$ (sample size) | 6,487 | 6,069 |

Table 2: How often do you usually have breakfast (more than a glass of milk or fruit juice) on weekdays? By age group (\%)

|  | $10-11$ | $12-14$ | $15-17$ |
| :--- | ---: | ---: | ---: |
| I never have breakfast during weekdays | 5.9 | 11.8 | 16.3 |
| 1 day | 3.6 | 2.7 | 3.0 |
| 2 days | 2.7 | 3.2 | 4.4 |
| 3 days | 3.0 | 5.2 | 5.8 |
| 4 days | 3.7 | 4.5 | 5.1 |
| 5 days | 77.1 | 69.9 | 63.7 |
| Missing (no data supplied) | 4.0 | 2.7 | 1.7 |
| $n$ (sample size) | 1,613 | 6,088 | 4,499 |

## ACKNOWLEDGEMENTS

HBSC Ireland is funded by the Department of Health. This short report was prepared for the Department of Children and Youth Affairs. We would like to acknowledge the children and parents who consented and participated, the management authorities, school principals and teachers who helped us to collect the data, the staff at the Health Promotion Research Centre of the National University of Ireland, Galway, the HBSC Advisory Committee and the International Coordinator of HBSC, Professor Candace Currie of the University of St. Andrews, Scotland.
