

TELESCOPE KIDS

Liam Cahill (5) gets to see the workings of a telescope while his sister Orla (8) and their cousin Harry Greally (7) await their turn. They were at Grattan Road beach where details of "Sea2Sky" were announced. On Friday, 23 September, Ireland will host 'Sea2Sky' - its first ever European Researchers Night organised by **NUI Galway** in collaboration with the Marine Institute and **Galway** Atlantaquaria, at Salthill.
