Postgraduate Prospectus
2024
Welcome from the President

Your decision on postgraduate study is an important one. Thank you for considering Ollscoil na Gaillimhe – University of Galway for your future studies. From the day you arrive here, you will be part of a thriving research community where you will be encouraged to fulfil your potential.

We are a global university, committed to outstanding students and staff, working in world-class facilities, conducting leading edge education and research.

We will be a driver of transformational change for our people, our region and our world, harnessing our distinctive strengths and creative energy to deliver significant and sustainable societal impact.

We want you to be and to feel part of that.

• As a respectful university, we recognise the distinctive needs of our people, and we will support your well-being and development throughout your postgraduate student journey. We respect evidence and expertise, and we will call on you to develop critical thinking and apply rigour to your studies while here.

• From our location on the edge of Europe, our university is open to the world. Ours is a diverse learning community, and we value the dynamism our 3,500 postgraduate students bring to Galway each year from over 90 countries. We work hard to ensure that ours is an accessible and inclusive campus, and during your time here you can expect to engage with a diversity of views and experiences. We are keen collaborators, and you’ll see first-hand that our research benefits from insights, partnerships and networks from around the world.

• Together, we are on a journey to become leaders in sustainability. Our university is rooted in the unique culture, communities and landscape of the west of Ireland and our research is focused on many of the world’s most pressing challenges, as framed by the UN Sustainable Development Goals. We recognise our important role in shaping the sustainability leaders of the future and we will encourage you to be part of the solution.

• We strive for excellence and impact in what we do. Galway is a global hub for medical technology, data and IT and a city renowned for culture and creativity. We want you to be part of our dynamic university community, learning from world-leading academics, gaining new skills and perspectives, and building a career that will sustain your own passions and excellence into the future.

We are proud to invite you to join our global postgraduate community. I look forward to welcoming you to University of Galway.

Professor Ciarán Ó hÓgartaigh
Uachtarán—President
Values are at our core here at the University of Galway. We are committed to a culture based on four pillar values: respect, openness, sustainability, and excellence. These values are not just aspirational: we believe that adhering to them improves the educational experience for students as well as daily life for everyone on campus.

**Respect**

Respect is a multifaceted attribute embracing respect for each other; for teaching and research; for the evidence and the literature; for knowledge and its purpose in the world; for equality, inclusion, and diversity.

We want our postgraduates to experience respect in excellent teaching and the best possible learning environment, and to promote this we try to remove obstacles to learning and support the well-being of everyone on campus. Learning happens in an open, collaborative environment. As well as achieving an excellent degree we want our students to graduate as good citizens and independent critical thinkers, contributing positively to society and the economy.

**Openness**

We believe in open gates and open minds. As a research organisation we go out into the world to join with industry and academic partners, seek global research collaborators, talk to communities, and engage with ideas and insights that flourish beyond our walls.

At the same time we welcome in diverse voices, people from alternative paths, and challenges to our beliefs. We want to turn our words into actions, such as using universal design principles and improving access to university education for people who might have been or felt excluded. We truly believe that learning in a diverse, expansive environment enhances the postgraduate experience.

**Sustainability**

The core value of sustainability comes strongly from our students, the generation most acutely attuned to climate change. Sustainability is now at the heart of our university. Students insist that we play our part, and through student activism and the university’s research, teaching, and engagement, we are committed to climate action. We want our graduates to develop as sustainability leaders and to bring their knowledge to the wider world.

**Excellence**

Excellence is our essence and we pursue it in all aspects of our teaching, research, and engagement beyond our gates. The university ranking figures are clear evidence of how we excel. Our value of excellence extends beyond teaching—to our built environment, to engagement with the community, to our contribution to culture, and to our interactions with state and international partners. It involves high standards in all aspects of university life, as well as acknowledging that there may be ‘new and better ways’ and seeking out those ways. This emphasis on excellence will enrich your postgraduate experience and equip you for wherever it is you wish to go.

University of Galway is in the top 2% of universities in the QS World Universities Rankings, 47th out of 1,406 institutions in the Times Higher Education Impact Rankings, and in the Top 350 in the Times Higher Education World University Rankings.
Scholarships and Funding

Postgraduate Scholarships Scheme for full-time taught master’s students

At the University of Galway we are keen to ensure that the brightest and most committed students progress to postgraduate study. Our Postgraduate Scholarships are designed to reward excellent students who have performed exceptionally well in their undergraduate studies. Scholarships are worth €1,500 and will be awarded to EU students who:

• Have been accepted onto a full-time taught master’s programme commencing September 2024 and
• Have a First Class Honours undergraduate degree
• Have completed a scholarship application.

More information/how to apply: www.universityofgalway.ie/postgraduate_scholarships
t. +353 91 495 999
  e. postgradadmissions@universityofgalway

Humanities and Irish
• Old and Middle Irish Scholarship
• Scoláireacht Mhic Dhonncha (1953–2016)
• Sparánachtaí COGG/MGO
• The Colm Ó hEocha Bursary

See: www.universityofgalway.ie/postgraduate_scholarships for detail on all scholarships.

International Scholarships

The University of Galway is committed to attracting talented students from around the world. The university offers a number of partial international scholarships to highly capable international students on a competitive basis. For more information about eligibility criteria and how to apply, please see www.universityofgalway.ie/internationalscholarships.

Securing the postgraduate scholarship was a central turning point in my academic journey, significantly contributing to the successful completion of my MSc in Clinical Research. With the burden of financial constraints lifted, I was able to maximise my potential, excel in my coursework, and develop an understanding of clinical research methodologies and practices. This achievement will undoubtedly stand by me in future career prospects.

Sarah Flanagan
Recent University of Galway postgraduate scholarship recipient
Galway—feel connected
Galway is both a city and a state of mind. Beautifully set on Ireland’s western shore, Galway is at once ancient and modern, quiet and lively, reserved and bold. It combines the energy of a young, diverse population with an older, quieter place settled deep in history and tradition.

The city that’s ‘just right’
If ever there was a city that was not too big, not too small, but just right, it’s Galway. Galway has all the advantages of a city, such as easy access to culture, shopping, and entertainment, and few of the disadvantages. This compact city sits on the River Corrib where it enters the sea, with beautiful places to swim, kayak, hike, or birdwatch right on its doorstep. And our campus lies at the edge of the city, with a 10-minute walk taking you to its heart.

Students love the way their university blends with its environment. A university city for over 170 years, Galway welcomes its student population. Safe, friendly, and accessible, this young city is perfect for a student experience like no other.

Culture all around
Galway has culture in its very stones, including drama, music, film, and literature. The university has close links with the Druid Theatre, the annual Film Festival, and the international Cúirt Literature Festival. The Galway International Arts Festival attracts thousands every year, and almost every month has its own festival: [www.galwayfestivals.com/calendar](http://www.galwayfestivals.com/calendar). So while you’re here, why not dip a toe in and sample the culture that’s all around.

Our wonderful hinterland
One of the things students love about Galway is its proximity to beautiful beaches, mountains, and islands. Nearby Salthill has a sandy beach and famous diving tower. Further west are the ancient and desolate mountains and lakes of Connemara. The magical Aran Islands are a short boat trip away, and the coastal Wild Atlantic Way can be followed north or south right from the city.

Lower cost of living
The cost of living in Galway is considerably less than in Dublin. Rent prices are 25% more expensive in Dublin city than in Galway city (Source: [www.daft.ie](http://www.daft.ie) 2022 Q4 Rental Report). As the campus is located in the heart of the city and well serviced by bus routes, most students can get to the campus easily on foot, by bicycle, or via public transport.

Galway most charming
If you still need convincing, major international publications have frequently waxed lyrical about the city: the *Lonely Planet* called it ‘Ireland’s most engaging city’, *Travel+Leisure* magazine said it was ‘the friendliest city in the world’, and the *New York Times* labelled it ‘Ireland’s most charming city’.

Learn more about our charming city at: [www.universityofgalway.ie/mostcharming](http://www.universityofgalway.ie/mostcharming)
Employment
and Careers

How will a postgraduate course at University of Galway help your career?

By enhancing your employability, enabling you to stand out in a competitive global job market; future proofing your skillset, allowing you to seize new opportunities or progress in your existing career; and increasing your salary potential. We are one of Ireland’s top universities for employability.

91% of our most recently surveyed postgraduate students are in employment or further education by the March following graduation.

Employability and the Postgraduate Return on Investment

Investing in a postgraduate qualification is a wise step in your career path. Recent developments such as fast digitalisation, changing lifestyles, and new consumer preferences mean careers are being rapidly transformed. Focusing on adding to your skillset allows you to capitalise on new career opportunities and increases promotion prospects in your current role. In addition, employers view a postgraduate qualification as a sign of commitment and expertise, making you a more attractive job applicant. And research shows that earning power and career progression greatly increase for postgraduates—they have an average starting salary of €6,000–€8,000 more than an undergraduate. (Source: HEA Graduate Outcome Survey 2022.)

Career Development Centre Services

Our Career Development Centre team help you discover the right career path for you, develop your knowledge of opportunities and how to connect with employers, prepare applications for the recruitment process, and apply for the best jobs.

Discover: We guide your career journey through

• Psychometric testing
• Dedicated careers information hub (on campus and virtual)
• Self-guided career modules

Develop: We put you in touch with prospective employers through
• Jobs fairs and employer events
• Jobs vacancy system
• Networking opportunities

Apply: We help you compete in the jobs market to the best of your ability through
• CV workshops, e-learning, and unlimited AI feedback via CV Builder tool
• Interview skills workshops, e-learning, and AI mock interview software to practise interview skills
• Applications advice
• Employment skills workshops and Employability Award

Top employers for recent PG graduates include HSE, Deloitte, Medtronic, Wayfair, KPMG, Tusla, Boston Scientific, PWC, AIB, Pfizer, Accenture.

180+
Graduate employers visit annually to meet and recruit students

250+
New industry collaborations last year: we are a hub for innovation and enterprise

200+
Careers events, seminars, and workshops held on campus each year

4,000+
1-to-1 appointments with our careers team available each year
As a postgraduate student at University of Galway, you will have the chance to collaborate and network with fellow students from all over the world, enriching your academic and personal experience.

University of Galway has an academic community of world-leading researchers working at the forefront of their fields. With partner institutions worldwide, University of Galway offers opportunities to collaborate internationally through its postgraduate programmes. As part of your course, you may have the opportunity to travel or be part of a virtual global team.

You will learn with the best—we attract academics who lead in their fields and who are working to address global issues.

Entry Requirements
International entry requirements vary by programme. Most of our master's programmes require students to have studied a relevant subject at undergraduate level. Applicants whose first language is not English must submit an English-language qualification test, such as TOEFL or Cambridge. If you need to enhance your language and academic skills, our English Language Centre provides preparatory programmes to help you meet the language requirements. For the most up-to-date information on international entry requirements please visit our website.

Living in Galway
Living in Galway is affordable compared to other cities in Ireland. As a student, you can immerse yourself in a vibrant campus life with numerous cultural, social, and sporting activities. A stroll to the city centre brings you to lively restaurants, pubs, shops, and entertainment venues.

Third-Level Graduate Scheme
This programme allows legally resident Irish educated graduates who hold a Level 8 or Level 9 award from a recognised Irish awarding body to remain in Ireland after their studies for a period of up to twenty-four months.

Immigration Regulations
Students from UK/EU/EEA do not require a visa to study in Ireland. Students holding other nationalities are required to comply with Irish Visa and Immigration regulations. It is your responsibility to ensure that you obtain and maintain a valid passport and relevant permission to enter Ireland for study purposes. For the most up-to-date immigration information please visit our website.

@StudyInGalway
University of Galway International
Our international reputation for excellence attracts a lively community of world-class academics, researchers, and students to the college.

Our postgraduate programmes give students the power to change both their own lives and society for the better. We offer a teaching experience that emphasises intellectual curiosity and the potential of higher education to transform.

We consulted major employers while developing our innovative suite of taught postgraduate offerings. Our courses reflect the growing demand for highly skilled, creative, and flexible graduates both at home and worldwide, and many courses are accredited by relevant professional bodies.

Our research programmes provide excellent opportunities for exciting discoveries and trialling of new ideas. These programmes range across both established areas of study and those emerging in response to modern challenges.

Our taught and research programmes equip graduates to follow careers in industries across the public, private, and not-for-profit sectors. This includes academia, business, communications, education, government, innovation, media, performing and creative arts, publishing, social services, technology, and translation to name but a few.

This award-winning College comprises three schools: J.E. Cairnes School of Business and Economics, School of Law, and Shannon College of Hotel Management. In the commercial and public policy areas our staff are active in research and leaders in original thinking.

**J.E. Cairnes School of Business and Economics**

Our globally engaged School of Business and Economics focuses on the public good and transformative impact for students, society and business. We tailor our business postgraduate programmes to the professional skills needed to succeed in a competitive international environment. The Association to Advance Collegiate Schools of Business International (AACSB) and Association of MBAs (AMBA) have accredited the School, and we have received the Athena SWAN Bronze Award. Programmes focus on research-led teaching, innovative approaches, and cutting-edge technologies, while students benefit from industry engagement and a global experience.

**School of Law**

The School of Law’s postgraduate programmes provide access to world-class academics in the School and its three internationally renowned research centres: Irish Centre for Human Rights, Centre for Disability Law and Policy, and Centre for Housing Law, Rights and Policy.

We deliver our taught postgraduate programmes in a stimulating and supportive environment. Students can avail of exciting opportunities for specialised qualifications, and many programmes facilitate international field trips, with some offering prestigious work placements.

**Shannon College of Hotel Management**

Shannon College has provided unrivalled business education in global hospitality for over 70 years. The QS Subject Rankings 2022 ranked University of Galway in the top 150 institutions for hospitality and tourism education.

We offer postgraduates a unique opportunity to develop academically, personally, and professionally. Our comprehensive postgraduate programmes allow students to develop skills they can adapt and use in a wide range of industries and leadership roles.

College of Medicine, Nursing and Health Sciences

The College of Medicine, Nursing and Health Sciences is a modern and distinguished College comprising three Schools.

The College has a broad offering of unique and renowned postgraduate programmes, with over 40 options to enable you to enhance your specialisms and advance your career. We have one of Ireland’s largest portfolios of postgraduate programmes, and they are open to applicants from various backgrounds.

The College has a vibrant research community with strategic research priorities that respond to the needs of some of the greatest health challenges facing society and the economy globally, including age-related conditions, cancer, chronic diseases, infection, and mental health.

There is a strong focus at the College on putting the patient at the centre of all health and social care research and education, with a belief that patients and the public bring an authentic perspective to our research.

In 2023 University of Galway launched Ireland’s first Institute for Clinical Trials. It seeks to transform the clinical research landscape in Ireland by creating a comprehensive end-to-end programme supporting the development and delivery of clinical trials. It will create an environment where scientific advances are translated into improved care for patients. It will transform lives by ensuring patients get access to the latest medicines and treatments in a timely way. The Institute has an ambitious programme of research excellence which will build on existing experience along with its partnership with the Saolta Hospital Group.

The Institute will consolidate resources, grow our expertise and will positively impact patient health and outcomes. The institute also plans to develop partnerships with industry to further position Galway as the MedTech centre of Ireland, contributing to future economic growth and regional development. It will position Ireland at the forefront of clinical and biomedical discovery.

Postgraduate teaching spans several locations with the latest modern facilities, including the following:

- newly opened Human Biology Building
- modern, purpose-built Nursing and Health Sciences facility
- Biosciences Building
- Clinical Science Institute at Galway University Hospital
- Lambe Institute for Translational Medicine
- HRB Clinical Research Facility.

This allows for integrated research, innovation, and teaching, and creates a culture of collaboration with patient care at the core. Our historical close partnership with the Saolta creates many opportunities for students, including device development, clinical discovery, and practice and application.

Our postgraduate programmes are delivered by research-active international leaders and our curricula are developed in response to the growing need for advanced education, research, clinical practice, and training.

- Under 'Closing Date', Continuous basis = this course has no set closing date. Offers are made on a continuous basis.
- Under 'Duration', FT = Full-Time, PT = Part-Time.
- Under 'Non-EU Fees', N/A = Not Applicable.
- Tuition fees per annum are listed here. A student levy (€140 for 2024/25) is also payable.
- Any new courses introduced post-printing of this prospectus will be listed here: [www.universityofgalway.ie/newcourses](http://www.universityofgalway.ie/newcourses).

* Fees are correct at the time of going to print, but are subject to change (errors and omissions excepted).
The College of Science and Engineering at the University of Galway offers an exciting and interdisciplinary blend of research, innovation, and education across the full range of science and engineering areas.

From studying the stars, to how molecules interact, to delivering life-saving medical devices and cleaner energy, our mission is to produce impactful research and innovation, and to provide an excellent student-centred and inclusive educational experience.

Our interdisciplinarity enables a transdisciplinary approach to learning which cultivates expertise that creates, discovers, and is agile and distinct. We strive for excellence in our teaching programmes, so that we are a destination of choice for science and engineering, at all levels.

Our postgraduate programmes are progressive, diverse and research-led. Drawing on the distinctive strengths of our region in areas such as medical technologies, marine ecology, data/ICT and enabling technologies, we work with business and industry to provide graduates with the skills and knowledge to drive innovation, economic growth and research, and to address global concerns and challenges.

Our programmes empower students to develop critical thinking, employability and leadership, as well as to fulfil their potential as the next generation of change-makers, delivering real societal impact.

Our vision is to support ambition in education, research and innovation; to provide pioneering and competitive programmes, and to drive excellence. We do this through state-of-the-art, research-informed, transdisciplinary curricula that embed sustainability, contemporary evidence-based teaching methods, and interdisciplinary strengths. This empowers our students to achieve career success and to become valuable contributors to society.

Our researchers are shaping the future. Be inspired; be part of it.

University of Galway is committed to world-class research and creating new knowledge in key areas across engineering, the humanities, medicine, science, and the social sciences.

Our strategic focus is on five priority areas:

- Sustaining our planet and people
- Realising potential through data and enabling technologies
- Enhancing policy and society
- Improving health and well-being
- Enriching creativity and culture

Thousands of great minds at the university are helping to shape the future through research and discovery. The following sections provide information on the scale of research currently underway at University of Galway. As a postgraduate student, you could be part of this dynamic community. See yourself helping to advance sustainable sources of energy, improve human health through new treatments for diabetes and cancer, change public policies to improve human welfare, or promote the creative industries through research on our culture, language and heritage.

The scope of our research here at University of Galway is far reaching. Join us and help shape a better future.

Research matters—join us in changing the world.
Research Programmes

Research study programmes (e.g., PhD, MD, Research Master’s) are available across our four Colleges, in the following subject areas:

- Agribiosciences
- Anaesthesia
- Anatomy
- Applied Behaviour Analysis
- Applied Mathematics
- Archaeology
- Bacteriology
- Biochemistry
- Bioinformatics
- Bioinnovate, Bioinnovation
- Biomedical Engineering
- Biomedical Engineering and Regenerative Medicine (BMERM)
- Biomedical Engineering Science
- Biomedical Science and Engineering
- Biostatistics
- Botany/Plant Science
- Business Information Systems
- Business, Public Policy and Law
- Cancer Research
- Cellular and Molecular Biology
- Celtic Studies/Léann Ceilteach
- Centre for Excellence in Teaching and Learning (CELT)
- Chemistry
- Child and Youth Research
- Children’s Studies
- Civil Engineering
- Classics
- Cloud Computing Research
- Commerce
- Computer Science
- Creative Technologies
- Data Science Institute/Insight
- Digital Arts and Humanities
- Disability Law and Policy
- Drama and Theatre Studies
- Earth and Ocean Sciences
- Economics
- Education
- Electrical and Electronic Engineering
- English
- Environmental Science
- Film Studies
- French
- General Practice
- Geography
- German
- Global Women’s Studies
- Health Promotion
- Health Psychology Practice
- Health Sciences
- History
- Human Rights
- Industrial Engineering
- International Cultural Studies
- Irish Studies
- Italian
- Journalism, Media and Communication
- Key Enabling Technologies
- Language Science

Hardiman PhD Scholarships

The university’s Hardiman doctoral scholarship scheme celebrates 12 years of success since the first awards in 2011.

The Hardiman Scholarships are funded through a combination of generous philanthropic donation and university- and college-level funding support. They offer opportunities for suitably qualified students to pursue full-time, fully funded structured PhD studies in one of the four colleges on topics aligned to the five key areas of research in which the university offers leading expertise:

- Enhancing policy and society;
- Enriching creativity and culture;
- Improving health and well-being;
- Realising potential through data and enabling technologies;
- Sustaining our planet and people.

The objective of the Hardiman Scholarships is to attract the best scholars to the University of Galway, with the determining criterion in awarding a Hardiman Scholarship being the quality of the applicant, nationally and internationally. Over the years, including 2023, around 3,130 excellent applicants have applied for a Hardiman Scholarship. This has resulted in the awarding of a prestigious Hardiman PhD Scholarship to 288 high-achieving individuals who have an appetite for the research world and creativity, who thrive on intellectual excitement, and who positively impact and shape the future for all in our society.

Find out more at: universityofgalway.ie/hardiman-scholarships

“The Hardiman Scholarship programme promotes entrepreneurship and fosters an interdisciplinary culture by connecting its scholars from across the university. This helped me in my career as co-founder of a Digital Health start-up. My PhD ensures that I can maintain the highest level of scientific rigour throughout all company endeavours as we develop products for both EU and US markets.”

Emma Carr
Hardiman Scholarship Recipient
The Research Application Process

Applying for a research programme at University of Galway is a three-step process:

1. Find a supervisor/PhD project.
2. Review funding and scholarship opportunities.
3. Finally, apply online.

**Step 1: Find a Supervisor/PhD Project**

One of the most important parts of choosing a research programme is finding a supervisor who has relevant expertise in your area of interest. You can find potential supervisors and identify the key research interests of our academic staff and researchers by using our online search site: [www.universityofgalway.ie/findasupervisor](http://www.universityofgalway.ie/findasupervisor). Insert a keyword to find a PhD project or supervisor name (see search field box, top right of webpage). For example, inserting the keywords ‘artificial intelligence’, will return these results (partial screenshot shown, more entries will be displayed online). You can then download/export your results in different formats (e.g., PDF or Excel). The output file includes details of the research theme and sub-theme of our current research projects. Contacts for each are also listed.

When you find a supervisor who, or a project that, aligns with your research interests, you should make contact with the relevant academic to discuss matters further. They can also advise you on how to apply to become a University of Galway research student.

This search site links to IRIS, University of Galway’s Institutional Research Information System, which enables researchers and academic staff to maintain an up-to-date CV and showcase their research expertise. For example, clicking on the hyperlink under Professor John Breslin’s name in the ‘Find a supervisor/PhD project’ supervisor column (see Fig. 1) will bring you to Professor Breslin’s entry in the IRIS database.

This details the researcher’s biography, and clicking on the Research tab in this section will give you more important information. Other links to view include Publications (Book Chapters, Peer Reviewed Journals, Conference Papers, and so on) (see Fig. 2).

**Step 2: Funding and Scholarships**

See page 26.

**Step 3: Apply Online**

The final step in the research application process, once you have found your supervisor and PhD project, and hopefully having secured funding, is to apply online: [www.universityofgalway.ie/apply](http://www.universityofgalway.ie/apply). For further details on how to apply, please see pages 28–29 of this prospectus.
Research Funding and Scholarships

External Scholarships

Irish Research Council (IRC)
www.research.ie
Provides postgraduate funding to undertake a PhD programme in all disciplines, under the following schemes:

• IRC Government of Ireland Postgraduate Scholarship Scheme: supports suitably qualified research master's and doctoral candidates pursuing or intending to pursue full-time research in any discipline.
• Employment-Based Postgraduate Programme: supports suitably qualified candidates in any discipline working in partnership with academia and industry while employed by an enterprise partner.
• Enterprise Partnership Programme: co-funds awardees to bring great research ideas into an enterprise with the support of a higher education institution.

Wellcome Trust
http://wellcome.ac.uk/funding
This funding scheme supports individuals, teams, resources, seed ideas, places, and major initiatives in these areas: biomedical science, population health, product development and applied research, humanities and social science, public engagement, and creative industries.

NUI Awards
www.nui.ie
The National University of Ireland makes awards available to postgraduate research students.

Universities Ireland North/South Scholarship Scheme
www.universitiesireland.ie/northsouth-postgraduate-scholarships/
The aim of this collaborative scheme is to encourage outstanding students from the Republic of Ireland and Northern Ireland to cross the border to undertake postgraduate study and experience life in the other jurisdiction on the island.

International Scholarships

University of Galway is ranked in the top 2% of universities globally and is committed to attracting high-calibre students from around the world. To this end, the university offers a range of scholarships to students from a number of countries, in line with our strategic international priorities. Scholarships can vary from year to year, so we recommend you review them on our website for the latest information.

There are a number of external funding sources for international students, and we recommend exploring funding options in your own country. We list below some of the scholarship bodies the university collaborates with, but there are others you may wish to research yourself.

Irish Fulbright Commission: Fulbright US Student Awards
www.fulbright.ie
The Fulbright Commission of Ireland awards grants to Irish and EU postgraduate students, scholars, and professionals to study, research, and lecture in the United States, and to US students to do the same in Ireland.

The George J. Mitchell Scholarships
www.us-irelandalliance.org
Mitchell Scholarships are awarded annually to US postgraduate students on the basis of scholarship, leadership, and a sustained commitment to community and public service.

Examples of Other External Funding Sources for International Students

Ireland Fellows Programme
www.irishaidfellowships.ie
China Scholarship Council
apply.csc.edu.cn/csc
Funding for Australian Students: The General Sir John Monash Awards
www.johnmonash.com/applications
Education in Ireland
www.educationinireland.com/en
Government agency responsible for promoting Irish education overseas. Lists various funding opportunities for international students studying in Ireland.

More Funding Bodies

• Paras Education Foundation (TPEF)
• European Union
• Health Research Board
• International Scholarship Resources
• Open Society Foundations
• Research Careers Ireland

General Information

www.revenue.ie: Information on how income arising from a scholarship is exempt from tax.

www.studentfinance.ie: Information on financial support for further and higher education.

www.susi.ie: Website for applications for student grants.
Postgraduate Fees and Funding

Postgraduate Tuition Fees
Fees can change from year to year. Please check www.universityofgalway.ie/fees for individual course fees and methods of payment. Fees quoted are per annum.

International Student Fees
International student fees may be paid in full prior to registration or 50% of fees may be paid before registration* and the balance paid in full before 31 January 2025.

*Depending on visa requirements, students may need to pay €6,000 or 50% as part of their visa approval/application.

Deposit—Taught Courses Only
To secure a taught course postgraduate place at University of Galway, a deposit is payable at offer/acceptance stage. The deposit is usually €500 but can be €1,000 for some courses. The deposit payment is deducted from your course fee at registration. If you do not register, then this deposit is not refundable. However, if you did not attain the stipulated conditions of your offer when a conditional offer was originally made, we will refund the deposit, except for the Professional Master of Education and Máistir Gairmiúil san Oideachas programmes.

Tax Relief
Full-time and part-time students can qualify for tax relief on tuition fees. Further information is available at www.revenue.ie.

Funding
Several sources of funding are available to students who meet certain eligibility criteria, including student grants. A comprehensive list is available at www.studentfinance.ie. Family and/or personal income is the key assessment when you apply for a grant, but there are other criteria.

Scholarships
See pages 3 and 26 for postgraduate scholarship information or visit www.universityofgalway.ie/postgraduate_scholarships

To enhance access and participation opportunities for unemployed and low-income individuals, University of Galway has approved a Scholarship Scheme to reduce fees for applicants receiving Jobseeker’s Benefit, Jobseeker’s Allowance, Carer’s Allowance, One-Parent Family Payment, Disability Allowance, Community Employment Scheme, or Social Insurance Contribution Credits, who wish to enrol for part-time degree, diploma, or master’s courses and who meet Department of Social Protection income thresholds.

Grants
Comprehensive information is available at www.studentfinance.ie

Grant applications can also be made online at www.susi.ie

Government-Funded Initiatives
Springboard began in 2011 as part of the government’s Jobs Initiative. It complements the core state-funded education and training system and provides free or 90%-funded upskilling and reskilling higher education opportunities in areas of identified skills need. The ICT skills conversion programme is targeted at jobseekers who hold a Level 8 or equivalent qualification. These can undertake an intensive full- or part-time programme of study and work experience to acquire honours degree-level ICT skills.

The Human Capital Initiative (HCI) Pillar 1 offers free and discounted courses in areas such as ICT and data analytics, engineering, manufacturing, and construction. Courses are at graduate and postgraduate diploma level.

Education Loans
The main banks and credit unions offer student education loans, usually with low interest rates and/or deferred repayment terms. Consult their websites for more information.

For more see www.universityofgalway.ie/adult-learning/faqs/fees-funding-&-scholarships

For more see www.universityofgalway.ie/adult-learning/springboard/

For more see www.universityofgalway.ie/adult-learning/faqs/fees-funding-&-scholarships

Postgraduate Prospectus 2024 27
How to apply

We encourage all applicants to apply as early as possible.

Online Application
Applications to most postgraduate programmes at University of Galway are made online via www.universityofgalway.ie/apply

The application system will be open from 1 October 2023 to accept applications for entry to the 2024–25 academic year. Applications are submitted via an online form, and a step-by-step guide will assist you through the process. An application fee will be required, and this is non-refundable. You will require an active email account to use the system.

Application Fee
An application fee of €35 is payable upon making an application and is non-refundable. Upon completing an application for a course, applicants are provided with a discount code to apply for a second course at no extra charge. Therefore the €35 fee will facilitate up to two course applications.

Supporting Documents
When making an online application, most programmes require additional documentation to supplement your application, such as an essay, samples of work, a CV, etc. To see what supporting documents, if any, may be required for your programme, please visit: www.universityofgalway.ie/postgradadmissions/supportingdocuments

After submitting an application you must then upload the supporting documents.

Your application will not be put forward for review until all the supporting documents have been uploaded and your application status (on your online account) changes to ‘Marked Complete’.

Other Application Routes
A small number of courses have an alternative application system. These alternate routes will be clearly listed on the relevant programme page in this prospectus and in the online course listing at www.universityofgalway.ie/courses

When Should I Apply?
Applications are open for entry in 2024 on 1 October 2023. Please note that University of Galway does not set a deadline for receipt of applications (with some exceptions, see next section). Course quotas will be reviewed at specified times during the application cycle. As many courses fill up quickly, you are advised to apply early. Programmes which reach their quota before these review dates will not accept new applications. You are advised therefore to apply early to avoid disappointment.

Offers will be issued on a continuous basis, with the exception of applications for some programmes which are reviewed after the specified closing date. University of Galway aims to review applications within 10 working days of receiving a complete application, however application reviews for some programmes may take longer.

Upon review of the application, applicants will receive an update on the decision (normally within four weeks of submitting an application). Candidates who do not have their final degree marks available may be made a conditional (provisional) offer. Applications will continue to be reviewed in the summer months if there are still programme places available.

Exceptions
A number of programmes have specific deadlines, for example:

• Professional Master of Education (PME) and Máistir Gairmiúil san Oideachas (MGO);
• Doctor of Psychological Science (Clinical Psychology).

Important: check individual course websites to see closing date for each: www.universityofgalway.ie/courses/taught-postgraduate-courses

Research Applicants
As a research applicant, you are advised, in the first instance prior to submitting an online application, to consult with the academic discipline, school or research centre at University of Galway in which you intend to do your research. At this stage, you should have prepared an outline proposal for submission for the department to consider and support. Before making an application, applicants will be required to find a supervisor (see page 25 for information).

Generally there is no closing date for research applications. However, applications for the PhD degree in the traditional format (i.e., Non-Structured PhD) in the College of Arts, Social Sciences, and Celtic Studies are considered for students commencing their programmes in September and January only. Only applications received before mid-July and mid-November respectively (in the year of study) will meet these commencement requirements.

Note: Structured PhD applicants in the College of Arts, Social Sciences, and Celtic Studies must apply by mid-July to commence in September. In a small number of cases, a closing date has been set up for research programme(s)—you are advised, therefore, to check the specific research course.
Recommendations
We recommend that you apply early in the year (November/December), particularly for programmes that start in the autumn (September/October), especially if you are applying from outside of the European Union (EU) as you will need to apply for a student visa. See page 7 for further information.

You should also allow sufficient time to make any financial, travel and accommodation arrangements when you are offered a place.

Deposit—Taught Courses
If you are successful in obtaining a taught programme place, you will be obliged to pay a non-refundable deposit (€500 generally; €1,000 for some programmes) to secure your place. This deposit is then deducted from the full course fee. No deposit is required for research programmes.

English Language Requirement
Applicants from outside of Ireland whose first language is not English must provide evidence that their English-language ability meets the required standard for admission. Please visit www.universityofgalway.ie/internationalstudents/apply.html to see the list of English language tests we accept. The English language test must have been taken no more than two years prior to the commencement of your course at the University. Please visit www.universityofgalway.ie/international-students/apply.html.

Note: The University of Galway TOEFL institution code is 8861.

Garda Vetting/Police Clearance
Some courses require students to provide garda vetting and/or police clearance certificate(s) prior to registration. Such requirements are clearly noted in this prospectus. You can find more details about the University's police clearance policy at www.universityofgalway.ie/admissions/admissionspoliciesandregulations.

Recognition of Prior Learning
The University’s Recognition of Prior Learning (RPL) policy may enable learners to gain admission to a programme of study or to gain exemptions from programme modules based on demonstrated learning achieved prior to admission. Some of the programmes of study listed in this prospectus may consider RPL applications. For further information please contact the programme director or visit our RPL website on www.universityofgalway.ie/rpl.

Further Information and FAQs
For more detailed information on making an application, please visit www.universityofgalway.ie/courses/how-to-apply

If you are an international applicant, please visit www.universityofgalway.ie/internationalstudents/apply.html#tab3
University of Galway has successfully provided part-time study opportunities for students for over 40 years. With postgraduates today requiring more flexible study options, the university has developed a range of online and blended learning study options. These are in a variety of subject areas and are designed for people who need to fit study around their professional and personal commitments.

The listing below refers to the courses available in each subject area. Check www.universityofgalway.ie/onlinelearning for updates. This website also lists other online professional, part-time, and evening courses, with details available from our Centre for Adult Learning and Professional Development.

### Arts, Social Sciences, and Celtic Studies/An tAcadamh
- Adolescent Health, PgCert
- Ardscoilanna Gaeilge do Mhúinteoirí, Teastas larchéime
- Child, Youth and Community, MA
- Cleachtais Gairmiúil sna Meáin, MA
- Creative Arts Management, PgCert
- Ghaeilge Fheidhméach, Ard-Dioplóma
- Léann an Aistriúcháin, MA, Teastas larchéime
- Léann Teanga, MA

### Healthcare
- Advanced Healthcare Practice and Research, MSc
- Cardiac Rehabilitation, PgCert
- Cardiovascular and Pulmonary Rehabilitation, MSc
- Childhood Speech, Language, and Communication Needs, MSc
- Clinical Education, Master’s, PDip
- Clinical Research, MSc
- Diabetes, Professional Credit Award
- Exercise Physiology and its Application in Therapy, MSc, PDip
- Exercise Physiology and Rehabilitation, MSc
- Healthcare Simulation and Patient Safety, MSc, PDip
- Interventional and Cardiovascular Medicine, MSc
- Multidisciplinary Radiology, MSc/PDip
- Preventive Cardiology, MSc
- Regenerative Medicine, MSc
- Surgery, MCh

### Information Technology
- Computer Science—Artificial Intelligence for Professionals, PgCert
- Computer Science—Artificial Intelligence, MSc (online, part-time)
- Software Engineering, PDip
- Software Engineering and Database Technologies, MSc

### Nursing and Midwifery Studies
- Evidence-Based Future Healthcare (MSc)
- Midwifery, HDip
- Midwifery: Advanced Practice Midwifery, MSc, PDip
- Nurse/Midwife Prescribing, Certificate
- Nursing (Acute Medicine), MHSc, PDip
- Nursing (Advanced Practice Nursing), MSc
- Nursing (Children’s Palliative and Complex Care), MHSc, PDip
- Nursing (Diabetes), MHSc, PDip
- Nursing (Education), PDip
- Nursing (Emergency Care), MHSc, PDip
- Nursing (Gerontology), MHSc, PDip
- Nursing (Intensive Care), MHSc, PDip
- Nursing (Obesity), MHSc, PDip
- Nursing (Oncology and Haematology), MHSc, PDip
- Nursing (Perioperative), MHSc, PDip
- Nursing Education, Master’s
- Nursing (Public Health Nursing), MHSc, PDip
- Wound Healing and Tissue Repair, MHSc, PDip

The School of Nursing and Midwifery offers a range of 10-credit modules. These can be undertaken as stand-alone modules (Professional Credit Awards) and can provide part credit toward specialist programmes. To discuss these options please contact Dr Duygu Sezgin:

- t. +353 91 49 3344
- e. duygu.sezgin@universityofgalway.ie
- w. universityofgalway.ie/pca/pca.html

### Science and Technology
- AgInnovation, MSc
- Biomedical Science, MSc
- Cellular Manufacturing and Therapy, MSc, PDip, PgCert
- Construction Innovation (PDip)
- Medical Technology Regulatory Affairs, MSc
Conversion Courses

Graduates may be eligible for courses offered through other colleges and can search for programmes across colleges. For example, an Arts graduate could choose to apply to a Law course (e.g., LLB) or a Business course (e.g., HDip [Business Studies]).

The listings here refer to ‘interdisciplinary’ courses that welcome applicants from various colleges. [www.universityofgalway.ie/conversion](http://www.universityofgalway.ie/conversion)

**Arts, Social Sciences, and Celtic Studies/An tAcadamh**
- Applied Behaviour Analysis (MSc)
- Clinical Neuroscience (MSc)
- Consumer Psychology (MSc)
- Culture and Colonialism (MA)
- Digital Media (MA)
- Fine Art (Post Baccalaureate)
- Journalism (MA)
- Léann an Aistriúcháin (MA)
- Medieval and Antiquity (MA)
- Psychology (Full) (HDip)
- Public Advocacy and Activism (MA)

**Business, Public Policy and Law**
- Business Analytics (MSc)
- Business Studies (HDip)
- Corporate Finance (MSc)
- Cybersecurity for Business (PgCert)
- Digital Marketing (MSc)
- Financial Analysis (HDip)
- Global Environmental Economics (MSc)
- Health Economics (MSc)
- Human Resource Management (MSc)
- Information Systems Management (MSc)
- Innovation Management (PDip)
- International and Comparative Disability Law and Policy (LLM)
- International Finance (MEconSc)
- International Human Rights (LLM)
- International Management (MSc)
- International Marketing and Entrepreneurship (MSc)
- International Migration and Refugee Law and Policy (LLM)
- LLB (Bachelor of Laws)
- Marketing Management (MSc)
- Master of Business Administration (MBA)
- Peace Operations, Humanitarian Law and Conflict (LLM)
- Strategy, Innovation and People Management (MSc)

**Medicine, Nursing and Health Sciences**
- Cellular Manufacturing and Therapy (MSc, PDip, PgCert)
- Clinical Research (MSc)
- Diabetes (Medicine) (MSc)
- Diabetes (Professional Credit Award)
- Evidence-Based Future Healthcare (MSc)
- Exercise Physiology and its Application in Therapy (MSc)
- Healthcare Simulation and Patient Safety (MSc)
- Health Promotion (MA/PDip)
- Interventional Cardiovascular Medicine (MSc)
- Regenerative Medicine (MSc)
- Wound Healing and Tissue Repair (MSc)

**Science and Engineering**
- AgInnovation (MSc)
- Biodiversity and Land Use Planning (MSc)
- Biomedical Science (MSc)

Meet Us

On-Campus Postgraduate Events

If postgraduate study has been on your mind, you won’t want to miss our on-campus postgraduate events, where a warm welcome awaits you. Take this great opportunity to:

• meet fellow postgraduate candidates and academic staff
• learn about our wide range of courses
• discover the facilities on our beautiful campus
• find out about admission processes, student support, and funding
• discover scholarship opportunities
• get all the information you need at careers seminars, presentations, and CV clinics.

Postgraduate Open Evening, November 2023
What: This enjoyable evening of informal networking is designed with the working professional or returning learner in mind. If you’re thinking of expanding your skillset or moving to another field, this is the ideal chance to get all the information you need.
Meet teaching and research staff, as well as like-minded souls who want to grow their career options.
When: Tuesday 7 November 2023, 4–7pm
Where: Bailey Allen Hall

Postgraduate Open Day, February 2024
What: The Open Day is a fantastic opportunity to learn all you need to know about postgraduate study in one easy session. Meet staff and current students, attend a CV clinic, learn about scholarships and funding, and get all the information about the courses you’re interested in.
When: Tuesday 6 February 2024, 12–3pm
Where: Bailey Allen Hall

More information, including how to register for each, at: universityofgalway.ie/postgraduateopenday

Other Postgraduate Events

University of Galway also exhibits at other postgraduate events.
To see where you can meet us in 2023–2024, visit: universityofgalway.ie/postgradevents

Dates for Your Diary

Graduate Jobs and Futures Fairs: Tuesday 26 September 2023
Postgraduate Open Evening: Tuesday 7 November 2023
Postgraduate Open Day: Tuesday 6 February 2024

Campus Tours

Why not take a guided tour of our beautiful campus to get your bearings and absorb the atmosphere.
Email to book: visit@universityofgalway.ie
If you’d like to meet a particular programme director, please let us know in your email and we’ll do our best to arrange this.
Important: This hard copy prospectus lists all programmes on offer at the time of going to press, for entry in 2024. Details of new programmes on offer subsequent to the printing of this prospectus will be listed online at: www.universityofgalway.ie/newcourses. The information contained in this prospectus is, to the best of our knowledge, true and accurate at the time of publication. The content of the prospectus is for information purposes only and should not be viewed as the basis of a contract between students and the university.

University of Galway reserves the right to amend programmes or regulations at any time without notice, we may re-open previously closed programmes to accept applications in the event of programme quotas not being met. The university also reserves the right to withdraw programmes periodically for any reason (e.g., insufficient numbers).

The university reserves the right to amend course offerings, syllabuses, course delivery methods, examinations; fees, regulations or rules or substitute modules in response to any circumstances outside of the reasonable control of the university.

Fáilte Ireland kindly supplied some of the photographs included in this publication.
Your space & place to thrive.
